

Introduction:

The NHS is moving to more remote and digital ways of working and supporting patients. However, patients have limited choice of online solutions.

Method:

'Georges Place' was developed to meet this need. It is a 24 hour, fully hosted and moderated community network. The platform is data secure and secret to access.

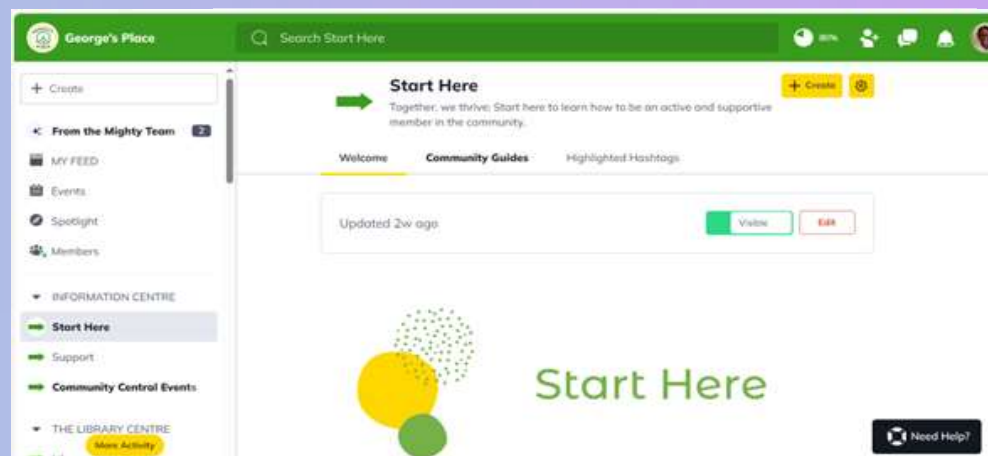

The platform offers:

- Peer Support and Social interaction 24/7
- Psychological support from accredited professionals
- Holistic Remote Groups ranging from Mindful Art to Fatigue to Upper Limb to Gardening groups
- Face to Face local Stroke Groups
- Information Library supported by Patient Stories
- Information and Webinars from Local Providers in the independent, charitable and social sector.
- 'George's Voice' – the hubs Patient Forum

Georges Place - A localised, bespoke, online community network for stroke survivors

Result:

Leanna Luxton
leanna.luxton@nhs.net

Conclusion:

The ambition is that George's Place is available to all patients moving forwards outside of the Northamptonshire area.
